UKC Show Brags

from Judy Acker of Ecola Poodles

Our solid red 9 month old puppy bitch completed her **CH** and was **BOB** at the Hampton Roads K C earlier this month.

Her owners are **Judy Acker** and **Barbara Reine**, Barb is the breeder.

Her littermate, an abstract red male, was BOB and Group 2 at every show.

The bitch is **UKC Ch ReineHaus N' Ecola Henrietta**, and the boy is **UKC CH ReineHaus N' Ecola Dinozzo**. He completed his **CH** at the age of 6 mos, but there were not enough CHs at the recent shows for Grand Wins.

Breeder Brags & AKC Show News

from Gina Wainiola of Rivers Edge/Mozaic Poodles

Our parti factored girl **Velvet** had a great month in the **AKC** show ring!

She earned 3 more points with 2 **BOW** and 3 **WB** wins at the **Marquette Kennel club** show & the **St Clair Kennel club** show.

These were breeder/ owner handled wins.....6 more points to go!

So proud of this Angelique daughter!

AKC Performance Brags

from Karen Kearney of Ciel Poodles

Lots of agility news on the Poodle front in NH!

Skye finally finished her **CL-1 title** in CPE (only needed 2 classes to do it)she has only 4 classes left to do in her level 2 and everything else is level 3. She will be graduating to Level 4 sometime this spring, I think.

In **AKC Agility** in **Skye's** second weekend trying, she managed a **triple Q** Sunday, 9/25/11!!

These were her **first qualifying runs** in **AKC!**

The first was in Time 2 Beat (T2B) and was 3rd fastest in her class and earned 6 points going against open and excellent dogs.

NEXT came Novice A Standard which she Q'd in and it brought me to tears to find out we **WON** our class!

On to the Novice A Jumpers with a course made for Skye's speed. She Q'd and brought in another 1st place! 2 blues and a 3rd to the fastest time in T2B, not too shabby for our first EVER AKC qualifying runs!

AKC Show News

from Jean Urban of Patriot Poodles

Patriot's Mikadoodle Dandy O'Wildwood aka **Buoy**

earned another AKC point at the Topeka, KS dog show.

He will be in the stud issues or Poodle Review

&

Poodle Variety. (picture left at the show next day)

Buoy turned 4 years old on the 15th.

NanJac's Ly-KaLa-dy in Red Patriot - **Kala** - earns her first 2 AKC points!!!

Winners Bitch, at the Purina Farms Event Center, Gray Summit, MO the day before her first year birthday from the Amateur Owner Handler class against professional handlers. Also in her debut in her big girl Continental cut.

Upcoming Litters.....

From Gloria Ogdahl of Tintlet Poodles

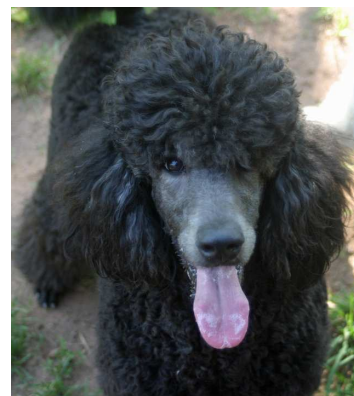

Tintlet is expecting puppies !!

www.tintlet.com

Madonna aka.....*U-CH Tintlet Material Girl* has been bred to**Rune** aka...*U-GrCH Tintlet Here's Your Sign* (both pictured left) Babies due around first week of November. Colors should be mostly blues, maybe some silvers. No partis as Madonna is not a parti carrier.

Kachina aka...*U-CH Tintlet When Stars Go Blue* (pictured right) was bred to a black AKC CH. Pups due a couple days after Madonna. I could only feel maybe 4 pups, so probably small litter.

From Priscilla Suddard of Paisley Poodles

Paisley poodles is expecting.....

A wonderful all parti litter.

UKC Ch Whenever Your Near

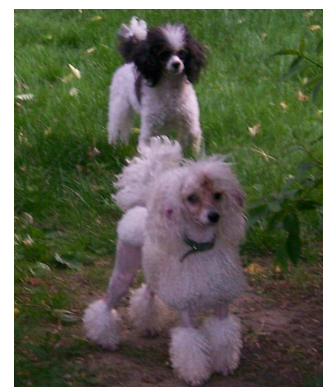

aka **Sunny** & **Spur** aka

UKC Ch TSF Paisley's Ride a Cowboy RN

are expecting Oct 6-11th .

I'm so excited to see what these two happy fur-kids produce !

Upcoming Litters cont'd.....

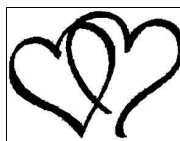

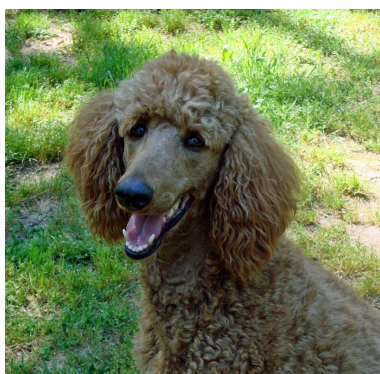

From Maggie Laney of Highfalutin' Poodles

We are expecting! After well over a year, we are having babies!

Our Annie aka *Elegant The Year Of Jubilee*, is expecting.....

Solid Blacks, maybe Creams, on October 12.

Daddy is Reese aka *AM/CAN/UKC CH Highfalutin' Hot Commodity*.

Remember to share your news & photos with us.

Send to Mozaicpoodles@hotmail.com

Our beautiful **Vikki** aka *U-GRCH Highfalutin' Wholly Smoke* is expecting. This will be her final litter. Puppies due October 22. This is an on purpose "repeat" of an Oops breeding last year that produced a litter of gorgeous pups in Black, Brown and Cream. After watching these pups over the past year or so, we decided this was the best breeding to end Vik's Mommy-hood. **Reese** is also the sire of this litter. Pups will be Solids but Phantom gene carriers.

PRACTICAL POODLE POSTSCRIPT.....

Fall is Flea Season

People always seem most concerned about flea control in the spring. While it is good to plan for flea prevention year round, rather than waiting to treat an infestation, spring in most places is not the big flea season.

The flea life cycle can be as short as 16 days when conditions are optimum. It consists of adult fleas, living and feeding on the poodle, and eggs, larvae and pupae, which are found in the environment.

In your home, this means they may be found in the carpet, the cracks and crevices of the floors, along the baseboards, and so on. Outdoors, immature fleas live in moist soil, sand, or mulch, under the deck or bush where your pets rest, in crawl spaces, etc.

The best approach to controlling fleas is to start with the least toxic and most natural choices, resorting to stronger measures only if reasonable control is not achieved. Flea control must deal with all stages of the flea's life cycle. The pupal stage is a particular problem, since no topical products can penetrate its protective outer layer. This is why you can give a poodle a flea bath and find fleas on him or her the next day. While the shampoo may have killed all the fleas on the poodle at the time, newly emerged adult fleas can hop right back on him or her soon after the bath.

Flea facts.....

- Fleas don't fly, they jump. A flea can jump up to 150 times its body length.
- Adult fleas feed exclusively on blood.
- The female flea begins laying eggs 24 hours after takes her first blood meal from your poodle.
- A female flea can lay 40-50 eggs per day, or 2000 eggs over her lifetime.
- The average life span of a flea is 2-3 months.
- Fleas can bite up to 400 times per day.
- Fleas cause anemia by sucking blood. Small pets can die from flea-bite anemia.
- Flea larvae feed on flea dirt. "Flea dirt" is actually flea feces. Flea feces consist of dried blood.
- Some poodles are allergic to flea bites.

Do's and Don'ts.....

- Use flea control products recommended by and purchased from your veterinarian.
- Use a product labeled for your pet's species, and in the correct weigh range.
- Be mindful of the age limitations for each product. (Some are for pets over 4 weeks, others say 7 or 8 weeks.)
- Do not use multiple products on one poodle, unless advised by your vet.
- Ask your vet for advice on bathing treated poodles.
- Do not apply to ill, debilitated, pregnant or nursing poodles without consulting your veterinarian.
- Contact your vet immediately if you see any adverse reactions. (While most products are considered safe, any poodle can have an unusual reaction to any flea control product.)
