THE PARTI LINE

“ANY POODLE REGARDLESS OF COLOR, THAT EXHIBITS EXEMPLARY HEALTH TEMPERAMENT AND CONFORMATION DESERVES A VENUE IN WHICH TO BE VALIDATED”

*The MCPCA (Multi-Colored Poodle Club of America) Official Newsletter
A UKC Sanctioned Club since May 5, 2005*

From The President's Desk.....

Dear MCPCA Members,

I know many of us are anxious for spring to arrive - we've had our share of snow and cold for sure! St. Patty's Day is coming soon and I for one am glad to think about green for a change!

I'd like to urge all club members to be sure they've joined the MCPCA group in order to get club information such as meeting announcements, agendas and other club business. This is different than the MPCPAChat group which is used to share member news. The MCPCA group sends out an automated meeting reminder each month with the call-in phone number for you to join the meeting. Please join in on the meetings - this is your club and we need you to participate.

We'll soon need a show committee for the 2012 Specialty so think how you can support this important club event - show chair, show secretary, hospitality, awards, raffle and more. If you're new to all this and nervous about stepping forward, we'll find a mentor to guide you. I personally like the 4-H motto, "Learn by Doing." Some of our members have done these jobs many times but need a break and you will learn so much by doing one of these important jobs - so jump in with all four feet - you'll get wet but you won't sink!

Keep those cameras rolling! Thanks to a great suggestion from Charlene, it looks like we've found a solution to the video project so watch for more news on how you can share videos of your dogs in action.

One of the important things MCPCA does is financially contribute to some great causes that support our breed and purebred dogs like the Rabies Challenge Fund. If you know of a great cause that you think the club should support be sure to bring it up at a membership meeting for consideration. If you have ideas to promote the multi-color poodle please let us know.

So, by gosh and begora, I hope to keep hearin' all the great things your wee leprechauns are doing and that you find a pot'o'gold at the end of the rainbow!

Rachel & Rochelle for 2011

2010 saw Rochelle become the #1 Standard Poodle and #4 Non Sporting in South Australia. A huge thankyou goes to Brett Thompson for achieving this with limited showing.

MBIS SBIS Ch Kirada Followthat Dream
 @ Excite to follow that dream whenever that dream may lead

Rochelle is now shown by the very talented Miss Rachel Hutchings, daughter of Kerin Hutchings, world famous Afghan breeder under the Suliman prefix. We wish both of them a successful 2011.

PRACTICAL POODLE POSTSCRIPT.....

February is Pets Dental Health Month

Start a Dental Maintenance Program for Your Poodle Today

Every February, several veterinary groups, including the The American Veterinary Medicine Association (AVMA), and the American Veterinary Dental Society (AVDS) join together to educate pet owners about the importance of regular care of their pets dental needs during Pet Dental Health Month.

The goal of “Pet Dental Health Month,” is to teach pet owners that proper dental hygiene is equally as important for their pets. Most people have no idea that dental health is so important to their pets.

Although dogs rarely get cavities, the plaque and tartar that do form can cause gingivitis and periodontal disease. Periodontal disease is the most commonly diagnosed problem in dogs and cats. It can lead to tooth decay, bleeding gums and tooth loss, which can lead to painful infections of the mouth. The effects of gingivitis and periodontal disease can be even farther-reaching. Left untreated, harmful bacteria from the oral cavity can spread throughout the bloodstream to infect the heart, lungs, liver and kidneys. In severe cases these infections can spread and become life-threatening conditions. The bacteria that causes all this can travel through the bloodstream and eventually damage the major organs.

Proper dental care begins with a trip to the veterinarian for a dental exam. This should be done once a year. Afterwards it is important to begin a home dental schedule.

Get your poodle used to brushing when he or she is young.

Regular dental care can result in a longer, healthier life for your poodle.
